Progress Report

Department of
Computer and Information Sciences

December 2025

Contents

1	Aims and Objectives	1
2	Summary of Related Work	2
3	Project Specification	3
4	Project Plan including summary of progress	4
5	Approach to Development	5
5.1	Methodology	5
5.2	Design	5
5.3	Implementation and Technology ideas	5
5.4	Testing and Evaluation plans	5

The page count of 12 is exclusive of bibliography and appendices.

1 Aims and Objectives

approximately one page

2 Summary of Related Work

approximately 5 pages

3 Project Specification

approximately 2 pages

4 Project Plan including summary of progress

deally includes some prototype development (approximately 2 pages)

5 Approach to Development

Brief summary of proposals for Development Methodology, Design, Implementation, Testing and Evaluation including proposed technologies to be used (approximately 2 pages).

5.1 Methodology

5.2 Design

5.3 Implementation and Technology ideas

5.4 Testing and Evaluation plans
